# Yikai Si

yksi2023@sjtu.edu.cn
github.com/yksi2023

## Education

2023-2027(expected) **B.S. in Physics** Shanghai Jiao Tong University
Zhiyuan Honors Program ( Top 10% students in SJTU )
Tsung-Dao Lee Elite Class
GPA: 3.93 / 4.3 Average Score: 91.0 / 100

## Research Experience

2025.6 – present **Research Assistant,** (PI: Prof. Shanshan Qin ).
Studied deep learning and computational neuroscience;
Investigated representational drift in deep continual learning. (Code: GitHub)

2025.10 – 2026.1 **Undergraduate Research ,** Supervisor: Xiaohui Yuan , Jie Zhang.
Develop a standardized DCI experimental database and a hybrid AI model to accurately predict bang time and implosion morphology, enabling data-driven analysis of how laser, target, and experimental-condition variations influence ICF performance.

2025.5 – 2025.12 **Zhiyuan Future Scholar Program ,** Supervisor: Hao Zheng.
Investigating higher-order topological insulators and superconductors in Bi-based materials using MBE growth and STM measurements.
Funded by Zhiyuan College (100,000 CNY)

2025.2-2025.4 **Undergraduate Research ,** Supervisor: Guorui Chen.
Developed a machine-learning model and GUI system for graphene layer-number prediction

## Skills

Coding Python, LaTeX, Bash, HPC cluster usage (SLURM)

## Certifications

TOEFL iBT 101 (2025.2)
CET-6 598

## Awards

2023,2024,2025 **Zhiyuan Honors Scholarship**
